

How Van Halen Rewrote the Guitar Rule Book

Examples 1a through 1d are characteristic of Van Halen's "beyond blues" approach to pentatonic- and blues-scale material. Squawky pick harmonics and descending chromatic passing tones enhance the short *A* pentatonic-major fill in Ex. 1a. Ex. 1b begins with a syncopated, three-against-four motive derived from the seventeenth-position *A* pentatonic-minor scale. The 2nd (*F*♯) and 6th (*C*♯) lend Ex. 1c a Dorian vibe, while Ex. 1d blends *B* blues and Dorian elements.

Many of Edward's solos climax with a precise, tremolo-picked single-string ascent followed by a high bend; the version shown in Ex. 2a is played over the IV chord (A in the key of E). The variation in Ex. 2b approaches the final bend with a short, repeated melodic sequence

One of the most important whammy-bar innovators since Hendrix, Eddie makes frequent use of "bar-as-pick" articulations. In Ex. 3a, for example, a single pick attack accommodates the entire ascending A pentatonic-minor lick. Bar articulations combine with hammer-ons and pull-offs for the Mixolydian riff in Ex. 3b. The seventeenth-position A pentatonic-minor lick in Ex. 3c shifts mid-measure to a three-against-four "bar-picked" pattern with hammer-ons and pull-offs.

Perhaps the earliest tapping technique to catch on widely was to add notes above a bend held by the fretting hand. Ex. 4 illustrates a blend of bending, tapping, releasing, and pulling off. In Ex. 5a the bent note becomes a pedal tone beneath a tapped melody that outlines an F# minor melodic sequence. The pedal-tone taps in Ex. 5b use descending chromatic tones for a quick, bluesy cadence; the final tonic is tapped one fret lower to compensate for the half-step bend. In Ex. 5c, the fret hand pedals two notes while the taps do the walkin'.

Many of Edward's tapped figures are based on symmetrical fingerboard patterns. The three-against-four motive in Ex. 6a makes the *A* pentatonic riff sound more complex than it actually is. Ex. 6b features five-note groups with symmetrical fingerings; note Eddie's string-switching technique and syncopated, bluesy cadence. Ex. 7 begins with symmetrical taps and then introduces tapped slides. Try rhythmically displacing this lick by a sixteenth-note in either direction.

With its Beck-styled “string zips,” Ex. 13 is literally all over the neck. Examples 14a through 14d showcase Edward’s creative melodic and rhythmic use of natural harmonics. These licks suggest *E* minor, but they also work over other chords built from the harmonized *E* minor/*G* major scale (i.e., *F#m*, *b*5, *G*, *Am*, *Bm*, *C*, and *D*).

* Finger parenthesized notes and tap directly over fret 12 frets higher.

Ex. 15a is a virtual tapped-harmonics primer. To sound the harmonics, finger the *Asus2* chord and use short, sharp tap attacks (think “finger mallet”) directly on the fret wire, 12 frets above each open or fretted note. The melody in Ex. 15b is built from chord shapes; finger each one and tap out the melody 12 frets higher. The tapped chordal harmonics in Ex. 15c are a fleshed-out variation of 15b. For tapped-harmonic chords, switch from tapping with your fingertips to the underside of your index finger. Angle your finger to approximate the diagonal shape of the *A* and *B* chords. Sympathetic notes held with the fretting hand will bleed through randomly. ■

Ex. 15b.

Ex. 15b. Musical score for guitar, tempo $J = 128$. The score is in 4/4 time and features a melody in the treble clef and a bass line in the bass clef. The key signature is one sharp (F#). The piece is divided into four measures, each labeled with a chord: E, B, A, and E. The melody consists of eighth and sixteenth notes, often beamed together. The bass line includes a "let ring" instruction in the first measure and a "harm." (harmonic) instruction in the second measure. The fretboard diagram shows the positions of the fingers for each note, with numbers 1-4 indicating fingerings. The diagram also includes a "0" for the open string.

Chords: E, B, A, E

Tempo: $J = 128$

Measure 1 (E): let ring, (9)(21)(10)(22)(10)(23)(9)(21)

Measure 2 (B): (7)(19)(8)(20)(9)(21)(5)(17)(6)(18)(7)(19)(6)(18)

Measure 3 (A): (9)(21)(10)(22)(9)(21)(5)(17)(6)(18)(5)(17)(7)(19)(8)(20)(9)(21)

Measure 4 (E): (9)(21)(10)(22)(9)(21)(5)(17)(6)(18)(5)(17)(7)(19)(8)(20)(9)(21) S
